**REMARKS****Status of the Claims**

In the Office Action, claims 1-14 are noted as pending in the application. Claims 1-13 are allowed. Claim 14 is objected to.

**Objection to the drawings**

Applicant traverses the objection to the drawings. Each claimed element is shown and labeled with a reference numeral in the several drawings. Each reference numeral is referred to in the specification when the corresponding element is discussed. Thus, Applicant respectfully submits that textual labels added to each drawing, which would clutter the drawing views, should not be required. Withdrawal of the objection is respectfully requested.

**Rejection of Claims 14 under 35 U.S.C. § 112.**

Claim 14 has been amended above to depend from claim 13, thus overcoming the objection. Withdrawal of the objection is respectfully requested.

Since textual labels should not be required and claim 14 is amended, Applicant believes the application is in condition for allowance and that action is earnestly solicited. If Examiner believes there are any outstanding matters that may be resolved by a telephone conference, Examiner is urged to contact the undersigned at her earliest convenience.
